

Mohamed Abo Mosalam Abdel-Mahdi

Google Apps Script Developer & Automation Specialist

0570532375 | mohamedabomosalam96@gmail.com | Madinah, Saudi Arabia

PROFESSIONAL PROFILE

Innovative Google Apps Script Developer and Automation Specialist with a strong background in industrial operations and document management. Successfully transitioned from technical and organizational roles to developing full-scale Production Management Systems. Expert in transforming manual workflows into digital cloud solutions using Google Sheets and JavaScript. Passionate about building impactful web platforms, optimizing data processes, and delivering high-accuracy administrative solutions.

CORE SKILLS

- **Development & Automation:** Google Apps Script (Expert), JavaScript, HTML, CSS, Process Automation, Workflow Optimization.
- **Data & Analysis:** Google Sheets (Advanced Formulas & Query), MS Excel (Advanced), Database Management Basics.
- **Technical Proficiency:** Document Control Systems, High Computer Literacy, System Troubleshooting, Fast & Accurate Data Entry.

WORK EXPERIENCE

ECC (Egyptian Cosmetics Company) | Gamasa, Egypt

Google Apps Script Developer & Automation Specialist | 02/2025 – Present

- Engineered a full-scale Production Management System using Google Apps Script and Google Sheets, transforming manual paper-based workflows into a digital cloud ecosystem.
- Developed custom web applications that utilize Google Sheets as a dynamic backend database for real-time data entry and retrieval.
- Automated complex business processes, including inventory tracking and daily reporting, reducing manual data entry errors by 40% and increasing operational efficiency.
- Integrated Google Workspace services (Gmail, Drive) to create seamless automated alerts and workflows for the factory management team.
- Maintained system code to ensure 100% uptime for production lines.

ECC (Egyptian Cosmetics Company) | Gamasa, Egypt

Production Preparation Technician | 05/2024 – 02/2025

- Managed raw material preparation with high precision, adhering to strict quality and compliance standards.
- Gained deep insight into the manufacturing lifecycle, which later facilitated the development of accurate software systems for factory operations.

Mohsen Shabaka Home Appliances | Kafr El-Atrash, Egypt

Showroom Manager | 01/2023 – 03/2024

- Managed daily showroom operations, including inventory control, sales tracking, and financial reconciliation.
- Oversaw customer service relations and resolved client inquiries to ensure high satisfaction.
- Handled financial records and performed daily data entry and analysis tasks using advanced Excel functions.

Mass Engineering & Construction | North Coast, Egypt

Document Controller | 02/2021 – 01/2023

- Managed and organized critical construction project documents (RFIs, Submittals, Drawings) for a mid-sized coastal resort project in Sidi Abdel Rahman, ensuring strict accuracy and secure archiving.
- Streamlined document retrieval processes, significantly reducing search time for engineering records and subcontractor files.
- Coordinated cross-departmental communications between site engineers and management, maintaining comprehensive logs for all incoming and outgoing documentation.
- Utilized MS Excel and digital document management tools for efficient data tracking, site progress documentation, and regular reporting.

PROJECTS

- **Itqan AI Platform:** Developed an educational platform leveraging AI to provide smart learning solutions and enhance user experience.
- **Blood Donation Platform (Tabarra':** Created a humanitarian web application to connect donors with patients, utilizing a dynamic database for quick search and matching.
- **Digital Gifting Registry (Noqoot):** Designed a social event management system for tracking financial contributions, effectively replacing manual paper records.
- **Digital Archive System (Mass Engineering):** Designed a small-scale, automated Excel-based archiving system during tenure as Document Controller to digitize over 1,000 physical engineering drawings and site contracts, improving data retrieval speed by 60%.

EDUCATION

Industrial Technical Diploma (3-Year System)

Industrial Technical School – Dakahlia, Egypt | 2012 – 2015

Certificate in AI & Web Application Development

Professional Development & Independent Coursework | 2023 – 2024
